**CHETHAN.V**

College life is one of the most cherished memories of our lives. Seshadripuram college provides a great balance between academics and extracurricular activities. My experience in the college has been amazing with a lot of learning and fun with teachers and my friends.

My journey starts from “Corona Batch” was an experience that shaped my academic pursuit of a BCA degree. I could never have anticipated. The challenges and opportunities presented by this unique period have left an indelible mark on my growth as a student and an individual.

As I stepped onto the campus, masks and social distancing became the norm, transforming the vibrant college atmosphere into one of cautious resilience. Remote learning became the new paradigm, and while it posed challenges, it also catalyzed innovation and adaptation. The classroom and corridors now existed virtually, with Zoom sessions and online forums becoming our classrooms.

Participating in NSS extracurricular activities added another layer of depth to my college experience. Engaging in community service projects and initiatives further underscored the importance of giving back to society. The shared sense of purpose among my fellow NSS volunteers created a bond that transcended our diverse backgrounds, reminding me of the profound impact that collective goodwill can have on the world around us.

REPORT FROM STUDENT COUNCIL 2022-23

**DHANUSH M**

Veena mam was a pillar of constant support, played an instrumental role in guiding me through my journey. Her mentorship and encouragement were invaluable as I navigated the complexities of my roles. Her unwavering belief in my abilities and her dedication to nurturing my potential fueled my drive to excel in all my endeavors.

My recognition as a poster designer in college added a creative dimension to my journey. Through visual art, I communicated messages that resonated with peers and engagement for various events and causes. Each design was a canvas through which I shared stories and connected with my community I were part Pragnya science form.

As an Incognito fest coordinator, I found myself at the helm of one of the most anticipated events on campus. Balancing creativity with organization, I orchestrated a carnival of hidden talents, fostering an atmosphere of excitement and camaraderie among participants. The thrill of witnessing those talents come to light remains a cherished memory.

As the Eco Mitra coordinator, I had the privilege of championing sustainability initiatives on campus. Giving environmental awareness and promoting eco-friendly practices. The passion and dedication of the Eco Mitra team reaffirmed my belief in the power of collective action and instilled a sense of responsibility toward our planet's well-being.

I got opportunities to participate in drama competitions hosted by other colleges. These events were more than

mere showcases of talent; they were platforms for us to learn from peers, exchange ideas, and receive feedback from judges. The exhilaration of stepping onto unfamiliar stages with diverse audiences, and receiving recognition for our efforts were moments of validation and growth that fueled our passion for the art form.

Simultaneously, my involvement in the college's cultural team added another layer of vibrancy to my experience. Working with a diverse group of individuals who were equally passionate about celebrating our heritage, I was part of cultural festivals, performances, and events that showcased the rich tapestry of traditions and talents within our college community. Beyond the performances, the friendships forged within these teams became the heart of my college memories.

Through these experiences, I learned the art of collaboration, discipline, and creative expression. I discovered the transformative impact that artistic endeavors can have on both performers and audiences. The ability to step into different characters' shoes, to evoke emotions, and to transport people to different worlds through performances became a source of inspiration that extended beyond the stage.

I got a chance to participate in student council as council probables from The Department of Computer Science. I didn't expect, I would be a President of Student Council.

As the Student Council President, I took on the responsibility of guiding and representing the student body. This leadership role required an intricate balance between approachability and authority. I worked closely with fellow students, faculty, and administration to address the challenges and aspirations of the college community. Collaborative decision-making and open dialogue became essential tools in nurturing an environment of inclusivity and growth.

There was a constant support from Sindhu mam and Sridhar sir guiding me in all the situations. It was a nice experience as a President of student council in my life. I will remember that day of student president.

In conclusion, my college experience, combined with my role as the college president, was an intricate tapestry that wove together academic exploration, personal growth, and leadership. As I step into the future, I carry with me the lessons learned and the memories cherished during this remarkable journey.

We learned a lot of things through experimenting, exploring, and experiencing during our projects. I am extremely grateful to the Institution for providing me with continuous support and guidance which helped me grow professionally and personally.

ecology and that they shall remain responsible in using the natural and other national resources. The Chief Guest, Guest of Honor and the Presidential remarks all together saw the different perspectives towards the need for ecological conservation and how man and nature must live in harmony for the common good all species.

With the formal Conclusion provided through the vote of thanks to the inaugural session, the most awaited Yakshagana program began. The theme began through an urge to the community to protect land, water, Quality of air, Natural and other resources.

The dance art commenced from the Scene of Bagavat Purana in which the life of Lord Sri Krishna is beautiful pictured as well as different facets of Lord Krishna Life has been shown. It talks of protection of one's culture, customs, traditions, land and ensure social, environmental harmony with forces of nature for wellbeing of present and future generations. Lord Krishna's enact took reference of a Banyan Tree, which mostly remains deep rooted and has its long existence. Here in this play the Banyan tree was compared to our Beloved Mother Earth.

The human greed for progress has led to the roots of banyan tree to lose its strength, Quality and the ill effects are seen across in the form of ecological imbalance which in turn has impacted all walks of human lives. **Lord Krishna pledges** to protect the environment- Shrusthi from the demons of **evil human thoughts**. Mean-while Kamsa who was the meternal uncle of Sri Krishna tries to cause harm to the lord. Sri Krishna was invited by Kamsa on the pretext of festival with intent to cause harm through Sugana Nidhi one from Yadava Clan. Lord understands the plot and through his good virtues overcomes all felt obstacles and finally eliminates the evil from this planet and says when there is atrocities which is mated on the good/ Nature, I come to protect the good and Eliminate the evil, I shall always remain for the safeguard of Dharma. “ Dharmo Rakshathi Rakshithaha” – Those who protect Dharma Shall remain protected by Dharma and their righteous path. Nature is also trying to fight back the same way as Lord Krishna to protect its self and nature and stand firm its ground at all times. There needs a careful introspection of human community to ensure wellbeing of all species. Mother earth has provided us all resources for healthy human living and it is our profound duty and responsibility to remain deeply indebted to such nature's gift and ensure its utmost care, protection for mutual sustenance.

The mangala geethey finally gave a strong call to the human community to protect nature, remain always conscious across walks and responsible in approach. “Our Planet our Future” Together we live for well-being of all and sustained national and environmental progress.

February, 2023 witnessed Dr. B. G. Bhaskara, Principal, Seshadripuram College. The technical session was handled by Dr. Swaminath S. On Day 1, he laid the foundation of the importance of choosing a title for research, amount of literature review required for a research paper is 40 to 50 research papers and 100 to 300 research papers for a thesis, the place for searching research papers for literature review, types of contemporary topics in the area of accounting (eg AI-Chat GPT) using AI in auditing and accounting, weather accounting, carbon accounting., What is the component of abstract? Identification of keywords seeing a topic. The components of introduction like significance of the topic, general statements, overview of current Research work, outlining key characteristics, intent to study, important results, Research niche-opposing existing assumptions, research gap, research questions. How to read the review of literature, we should read the title which is connected with abstract, start reading the aims and objective, in introduction read the first para and the last para, read the limitations, results and discussion,

conclusion, Statement of Problem- it contains review of literature-->Research Gap--> Research Questions. The statement of problem should have these components- The problem, Method to solve problem, purpose, objectives and scope, procedures. Objectives- Statement of Problem--> Objectives--> Hypothesis.

The time when you are framing objectives then the main research questions are framed. The resource person also covered with regard to Research methodology, Research Design- Descriptive, explorative, experimental, analytical, empirical, causal, case study example Analytical, Descriptive. Experimental.

The resource person covered the topic about Population and sampling units.

Sampling technique- probability and non-probability, Sample size- confidence level, margin error- Cochran's formula, Variables of the study, Basis of sampling and Research instruments.

Key Take Away

- A set of systematic inductive methods for conducting qualitative research aimed toward theory development.
- A mediating variable (or mediator) explains the process through which two variables are related, while a moderating variable (or moderator) affects the strength and direction of that relationship.
- Mediators provide additional information about how or why two variables are strongly associated. In contrast, moderators explain the circumstances that cause a weak or ambiguous association between two variables that were expected to have a strong relationship.
- Example: Instagram usage – Self Esteem (Moderator) – Social Comparativeness, Tired – Aggressive (Mediating) – Arguments
- A well-articulated statement of the problem establishes the foundation for everything to follow in the proposal.

Probability sampling is used when the research is conclusive in nature. On the other hand, when the research is exploratory, nonprobability sampling should be used.

Day 2

Giving the foundation for the statistical Analysis with the various statistical tools and thesis writing.

The resource person covered the aspects of Null hypothesis and Alternate Hypothesis, Type I error and Type II error, the hypothesis which is framed based on the objectives, brought in his own hypotheses used for his thesis research topic. The kind of hypothesis used for research writing and the kind of hypothesis which are framed for different types of statistical test. He covered with regard to the data types in business research such as- metric data and non-metric data, primary data and secondary data, qualitative data, types of scale-nominal scale, ordinal scale and scale (which includes ratio scale and interval scale), time series, cross sectional data, panel data and high frequency data. The concept of Normal distribution and concept of variances and skewness.

Pictures of Day 2: A 2 Day Workshop on 'Research Guidelines- Framing Hypothesis, Application of Statistical Tools and Thesis Writing' on 6th and 7th February, 2023

Key Take away

- Type 1: Probability of rejecting a null hypothesis when it is actually true (alpha)
- Type 2: Probability of failing to reject a null hypothesis when it is actually false (beta)
- Nominal Data – categorical measurement, dichotomous question – Chi square and other non-parametric tests are used
- Ordinal Data – ranking scale variables, order exists but we cannot measure the degree of preference over another
- Cross- Sectional Data – many entitled at one point of time Ex: financial ratios of many companies for a year
- One tail – greater than or equal to or smaller than or equal to , greater than is right tail, lesser than is left tail and Two tail – equal or not equal
- Significance level: In a hypothesis test, the significance level, alpha, is the probability of making the wrong decision when the [null hypothesis is true](#).
- Confidence level: The probability that if a poll/test/survey were repeated over and over again, the results obtained would be the same. A confidence level = $1 - \alpha$.

ಜೀವನ

ತಡವಾಗಿ ಹೋದೆ ತೊರೆದು ನೀನು,
ಕಟ್ಟಬೇಕಿದೇ ಗೋರಿ
ಭಾವನೆಗಳು ಸತ್ತವು ಸೂತಕವಿಲ್ಲದೆ
ಒಂದೇಸಾರಿ ಕೊಟ್ಟ ಮಾತಿಗೆ ಅರ್ಥವೆಲ್ಲಿದೆ?
ನಂಬಿಕೆಯೇ ದುಬಾರಿ ಎನ್ನನ್ನು ಹೇಳೇನು,
ಕತ್ತಲಲ್ಲಿ ಮರೆಯಾದವಳು ನೀನು!!

ಕವಿ ಮೊದಲೋ ಕಾವ್ಯ ಮೊದಲೋ
ಸೂರ್ಯ ಮೊದಲೋ ಬೆಳಕು ಮೊದಲೋ
ಮಂಜು ಮೊದಲೋ ತಂಪು ಮೊದಲೋ
ತಾಯಿ ಮೊದಲೋ ವಾತ್ಸಲ್ಯ ಮೊದಲೋ
ಸೃಷ್ಟಿ ಮೊದಲೋ ದೈವ ಮೊದಲೋ
ಒಚಿದೇ ನಾಣ್ಯದ ಬಿಂಬ ಎರಡರ ಬೆಸೆದು ಒಂದಾಗಿರ್ಪ ಇರುವಿನ
ಸತ್ಯವರಿತು ತೃಪ್ತನಾದವ ನಿಶ್ಚಿಂತ ಭಾವದ ನಿತ್ಯ ನಿರ್ಮಲಾ.

ಎತ್ತ ಹೋದೆಯೇ ಸಖಿ, ಎಲ್ಲಿಯೂ ನೀನಿಲ್ಲಾ...
ಹೊತ್ತೇರುತಿದೆ ಈಗ ಮರಳಿ ಬಾರಲೇ ಇಲ್ಲ ..
ದೂರದಿ ಕೇಳಿದ ವ್ಯಾಘ್ರನಾ ಘರ್ಜನೆಗೆ, ಬೆದರಿ ಅವಿತೆ ಏನು, ನಿನ್ನ ಸುಳಿವಿಲ್ಲ...
ಕಾನನದ ತುಂಬೆಲ್ಲ ಹುಡುಕುತ ಅಲೆದಿರುವೆ, ಕೆರೆ ತೊರೆಯ ಬಳಿಯೂ ನಿನಹೆಜ್ಜೆ ಗುರುತುಗಳಿಲ್ಲ..
ಈಗೇನ ಮಾಡುವುದು ಅರಿಯದಾಗಿದೆ ಎನಗೆ,
ಮರಳಿ ಸೇರಲು ಮಂದೆ, ಮನಸ್ಸಿಲ್ಲವಲ್ಲ.

ಎತ್ತ ಹೋದೆಯೇ ಸಖಿ, ಎಲ್ಲಿಯೂ ನೀನಿಲ್ಲಾ... ಹೊತ್ತೇರುತಿದೆ ಈಗ ಮರಳಿ ಬಾರಲೇ ಇಲ್ಲ ..
ದೂರದಿ ಕೇಳಿದ ವ್ಯಾಘ್ರನಾ ಘರ್ಜನೆಗೆ, ಬೆದರಿ ಅವಿತೆ ಏನು, ನಿನ್ನ ಸುಳಿವಿಲ್ಲ...

ಅಕ್ಕ, ನಿನಗೊಂದು ಕವಿತೆ

ನನಗೆ ನಿನ್ನ ಮೇಲಿರುವ ಪ್ರೀತಿ ಅನಂತ,
 ನಿನ್ನ ಆ ನುಡಿಗಳು ಹೃದಯ ಸ್ಪರ್ಶಿತ,
 ನಿನ್ನ ಉದಾರವಾದ ಮನಸು ಅದ್ಭುತ,
 ನನ್ನ ಭಾವನೆಗಳನ್ನು ಅರಿತ ನೀನು ಅದೆಷ್ಟೋ ವಿಚಿತ್ರ,
 ನಾನು ನಿನ್ನೊಂದಿಗೆ ಇರುವಾಗ ನನ್ನ ಮನ ಇರುವುದು ಹಾರುತ,
 ನೀನು ಯಾವಾಗಲೂ ಇರಬೇಕು ನಸುನಗುತ,
 ಅದೆಷ್ಟೋ ವಿಚಾರಗಳನ್ನು ನಿನ್ನಲ್ಲಿ ಹೇಳಿಕೊಳ್ಳುವುದೇ ನನಗೆ ವಸಂತ,
 ನೀನು ಯಾವಾಗಲೂ ಸಾಗು ನಿನಗೇನು ಬೇಕೋ ಅದನ್ನು ಪಡೆಯುತ್ತಾ,
 ನೀ ಇರಬೇಕು ಎಲ್ಲರಿಗೂ ಪ್ರೀತಿಯನ್ನು ಹಂಚುತ್ತಾ,
 ನಿನ್ನನ್ನು ಪಡೆದ ನಾವೇ ಪುನೀತ,
 ನಿನ್ನ ಜೀವನ ಸಾಗಲಿ ಎಂದು ಗೆಲ್ಲುತ,
 ನಿನ್ನ ಕೋಪ ಬಹಳ ಭಯಭೀತ,
 ನನಗೆ ನಿನ್ನ ಮೇಲಿರುವ ಪ್ರೀತಿ ಎಂದಿಗೂ ಕಡಿಮೆ ಆಗುವುದಿಲ್ಲ ಎಂಬುದು ಖಂಡಿತ,
 ನೀನು ಯಾವಾಗಲೂ ನನ್ನ ಜೊತೆಯಲ್ಲೇ ಇರುವೆಯ ನಗುತ್ತಾ?
 ನಮ್ಮ ಸಂಬಂಧ ಹೀಗೆ ಇರಲಿ ಶಾಶ್ವತ,
 ನಿನಗೆ ಒಳ್ಳೆಯದೇ ಆಗಲಿ ಎಂದು ಬಯಸುವವಳು
 ಈ ನಿನ್ನ ಪ್ರೀತಿಯ ತಂಗಿ ದೀಕ್ಷಿತ

ಹನಿಗವನಗಳು

ತಡವಾಗಿ ಹೋದೆ ತೊರೆದು ನೀನು, ಕಟ್ಟಬೇಕಿದೇ ಗೋರಿ
ಭಾವನೆಗಳು ಸತ್ತವು ಸೂತಕವಿಲ್ಲದೆ ಒಂದೇಸಾರಿ
ಕೊಟ್ಟ ಮಾತಿಗೆ ಅರ್ಥವಲ್ಲಿದೆ? ನಂಬಿಕೆಯೇ ದುಬಾರಿ
ಎನ್ನನ್ನು ಹೇಳೇನು, ಕತ್ತಲಲ್ಲಿ ಮರೆಯಾದವಳು ನೀನು

ಆಕೆ ತೊರೆದು ಹೋದ ದಾರಿಗೊಂದು ಹೆಸರು ನೀಡಲೆ?
ಕಾಣದವಳ ಕಂಡು ಕಣ್ಣು ಒರೆಸಲೆ?
ಕಂಡ ಕನಸಿಗಲ್ಲ ಬೆಂಕಿ ಗೀರಲೆ?
ಆಕೆ ಮರಳಿ ಬರುವಳೆಂದು ನಾ ಇಲ್ಲಿಯೇ ನಿಂತು ಬಿಡಲೆ ?

ಸುಳ್ಳು ಕೂಡ ನಿನ್ನದೆ, ಪ್ರೀತಿ ಕೂಡ ನಿನ್ನದೆ
ತೋರದ ಮುಖವ ನಂಬಿದೆ ನಾ ಹೇಗೆ ?
ಕೋಪವು ನಿನ್ನದೆ, ಅಪ್ಪಿಗೆಯೂ ನಿನ್ನದೆ
ಅಪರಿಚಿತೆಯಾಗಿ ನಿಲ್ಲುವ ನೀ ಹೇಗೆ ?
ಸರಿ ಹೋಗದ ಮನಸು, ಕಾಣೆಯಾದ ಕನಸು
ದಾರಿಯಲ್ಲಿ ಸಿಕ್ಕ ಹಸುಗೂಸು
ಬದುಕೋದು ಹೇಗೆ ಸೂಚಿಸು ?

ಕಡಲಾಚೆ ಹೋಗುವೆ ನಾನು ಪಯಣ ಮುಗಿಸಿ
ಒಮ್ಮೆಗೆ ನೆನಪೆಂಬ ಚೀಲವ ಹೊರುತ್ತ ಸಾಗುವೆ ದೂರದ ಊರಿಗೆ
ಕಾಣದ ಕಲ್ಪಲತೆಯ ಅಲ್ಲಿಯೂ ನೆನೆಯುವೆ ಎರುವ ಮುನ್ನ ಚಿತೆ
ಸೂತಕವಿಲ್ಲದ ನನ್ನ ಸಾವಿಗೆ ಆಕೆ ಮರಳುವಳೆಂಬುದೆ
ಮೂಡ ನಂಬಿಕೆ !!!!!

ಕಲ್ಪಲೂರಿನ ಕಂದ ನಾನು ಕೊರಗಿಹೆ

ಕಲ್ಪಲೂರಿನ ಕಂದ ನಾನು ಕೊರಗಿಹೆ
ಕುರುಡನ ಹಾಗೆ
ಕಲ್ಪವೃಕ್ಷದ ಆಣೆ ಹೇಳುವೆ
ಈ ಪದಗಳೆಲ್ಲವು ಸತ್ಯವೇ

ಮನದ ಜ್ವಾಲೆ ಮಿತಿಯ ತಲುಪಿ
ಹರುಷದಿಂದ ಇರುವ ಹರ್ಷಿತನು
ಕ್ರೋದಗೊಂಡ ಬರೆದ ಕವಿತೆ
ಕೇಳು ಒಡೆಯ ನಿನಗಾಗಿಯೇ ಸಾಲು

ವೃಕ್ಷದ ಒಡಲಾಗಿ ನಿಂತಿರುವ ಎನ್ನೊರಿನ ಮುಡಿಯು
ದಟ್ಟಬೆಟ್ಟವ ಮೆಟ್ಟು ನಿಂತಿದೆ

ಮೆರೆದ ಕುಲವದು ವೃಕ್ಷ ಕುಲ
ಸಹಸ್ರಾದಿ ವರ್ಷ ಕಳೆದು ಹುಟ್ಟಿದೆವು
ನಾವ್ ಮಾನವರು, ಅವರಿಂದ ನಾವು ತಾನೇ

ಸೃಷ್ಟಿಸಲಾಗದವ ನಾಶಿಸುವುದು ಸರಿಯೇ
ಮಾನವನೇ ಮೇಧಾವಿ ಎನ್ನುವುದು ಸರಿಯೇ
ಗಿಡ ನೆಟ್ಟು ಉಳಿಸಿರಿ ಪರಿಸರವೆಂದು
ಕಡಿಯುವುದು ಸರಿಯೇ ನಿನ್ನ ತಾಯಿಯ

ಬೆಳೆಸುವೆ ನಾನ್ ಬೆಳೆಸುವೆ
ಎಂದು ಮಂಕೆಟ್ಟು ಕೂತಿಯೇ

ಗಿಡ ನೆಟ್ಟು ಉಳಿಸಿರಿ ಪರಿಸರವೆಂಬುದು ಬೇಡ
ಪ್ರತಿಜ್ಞೆ ಮಾಡು ಮತ್ಯಾವ ಮರವ ಕಡಿಯನೆಂದು

ನೀ ಅವರ ಸ್ಥಾನದಲ್ಲಿ ನಿಂತು ಯೋಚಿಸು
ಅರಿವುದು ಕಾವ್ಯದ ಸತ್ಯವು

Impact of Artificial Intelligence – Curious Case of ChatGPT

Geoffrey Hinton, the man who won 'Noble Prize for Computing' who is known as 'The Godfather of AI' has quit his position at Google after serving almost a decade at Google and he warns about the dangers from Artificial Intelligence. He told that, some of the dangers of AI chat bots were “quite scary”.

But as we know AI is there to assist HUMANS to make things faster like AI can provide useful information answer questions, help with creative writing, give advice, generate any images you want, it can engage in creative writing tasks, such as generating stories, poems, or even dialogues. With all these pros for the users, What so scary about the AI? Why this sudden concerns over the AI? To get an answer for this we need to understand How this AI works

HOW AI WORKS?

AI works by using special computer programs that are designed to think and learn like humans. These programs are called ALGORITHMS. They are like a set of instructions that tell the computer what to do. The more data and information the computer gets, the smarter it becomes.

Let's take the recent internet sensation 'ChatGPT' as example. It's an AI Chatbot it will answer your questions as a human text, but you may think Google Search also does the same thing. No, ChatGPT is designed for generating text and answering questions, while Google is a search engine designed for searching the internet and delivering relevant results.

ChatGPT uses AI to understand and answer questions, it's like having conversations. On the other hand, Google is a tool to find information on the internet by searching through billions of web pages.

In simple words, AI means machine itself learns from the various data available in Wikipedia and other sources on internet. “So it's as if you had 10,000 people and whenever one person learned something, everybody automatically knew it. And that's how these chat bots can know so much more than any one person.”

WHAT IS DANGER IN AI THEN?

The first problem of AI is it is not regulated by any international body or any organization. All Top IT companies want this AI in their Software's and they are in hurry to achieve this. Many people think that “AI is becoming far more intelligent than it should be” which is right, and it can lead to 'Civilization Destruction'. So, with this AI being used in most of the organization which are smarter than a single human many show their concerns that AI will steal the jobs of the Workers in these companies, especially the software developers!

Mathematical Theorem

Geometrical theorem of life cycle

Statement : An ideal life is the mixture of happiness and sorrow in equal rations.

Data : life is a cycle having a sum of happiness and sorrow along with love.

Happiness = life+ love

Sorrow = life-love

To prove : $1/2 \text{ happiness} + 1/2 \text{ sorrow} = \text{life}$

Proof: in the above diagram of the life cycle

Happiness = life +love = EQ.1

Sorrow = life-love = EQ.2

ADD EQ.1 and EQ.2

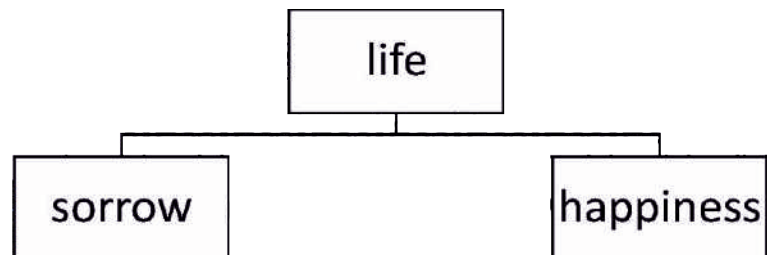

Happiness +sorrow = life +life

$2\text{life} = \text{happiness} + \text{sorrow}$

$\text{Life} = \text{happiness} + \text{sorrow}$

Therefore, $\text{life}_- = 1/2 \text{ happiness} + 1/2 \text{ sorrow}$

Hence, the life cycle is full of mixture of sorrow and happiness.

Impact of Modern Technology

Life has changed for all of us, due to technology. It has become more convenient and complicated at the same time. Convenience, particularly, in the areas of communication and acquisition and exchange of information. It is much easier to communication with someone with the help of mobile services. Information can be easily found on their internet. Technology has helped us serving as a tool. Just because of technology the world has become a global village.

The impact of technology on medical field is worth a mention. We certainly can't dent the benefits of technology in healthcare. The quality of human life has increased, as well as the job opportunity in the health care field.

In general, technology has a very positive impact on education, auto-visual lesson and online tutoring has become very popular in recent time. Technology has encouraged the student to be more innovation and inquisitive.

The impact of technology is innumerable. As every coin has two faces, every aspect has both positive and negative effects. Modern technology has become the brainchild of man. So it is in his hands to use it wisely only when he is in need of it. Over usage and unruly usage can only prove dangerous to man himself.

When it comes to yourself and youngsters like us, I would like to state that parental monitoring is very important and essential. As we hear the instance of death due to selfies and blue whale tragedies, I personally urge restrain from excessive dependency on modern technology.

Can we find Love?

What love really mean? Is it a feeling, emotion, thought? Can we see it? Can we feel it? Does everyone get love?

We often try to find what love is and how can we get it. We sometimes fight for love or help in order to get love. Does that mean we get love? Everyone is in the belief that they have to fight in order to get love. But that doesn't mean we always fight to get love. We sometimes should give time to our surrounding to develop into something better so that we can stay in a better surrounding as time passes. We all should understand that if we love something or someone that doesn't mean we should be behind

that one thing or one person until they love us back. Love doesn't work that way. If we still believe that it is that way then it is called "One sided love". Its common when someone loves something [which is nonliving]. But when it comes to a person loving another, without they loving that person back. It is the most wholesome moment or sometimes can be a heart trenching pain to see that they don't love that person back. In order to understand somethings difficult as love we need to have a lot of knowledge and experience before loving someone. But as a teenager we already would have felt attracted to someone at least once. Teenagers can't control those emotions at that point of time or age. So, they eventually do as their heart tells them to do. Being able to feel such a kind of emotions is the best feeling until it starts getting bad as we grow up. We realize that love doesn't work the way we had imagined it would work. The responsibility kicks in as we grow up. We have to be able to stand our own to survive in this reality. Responsibility to feed our family and keep them happy. It creates a lot of differences in the way we look at the world and even the word 'love'. We focus on finding someone who fits in our life's properly without disturbing our rules and regulations. We sometimes tend to forget about the others person life. That it might affect them too and they do have rights to live their own life's as they want. So then focus on finding common ground[where both can agree to things and work together].

"If we love a flower. Most of the people try to pick it up and keep it with them. The outcome will be that the flower will die soon. In order to love something as fragile as a flower we have to love it from a distance and water it everyday so it can be at peace in its own environment rather than picking it up and ending its life."

"If we love butterflies. Many will try to catch it. In the process will end up hurting it or disturbing its. If we love butterflies better than catching them, we can focus on building a beautiful garden. Watering the grass and flowers daily for few months. Then as time passes, we already would have a lot butterfly around us"

The part we forget is that. Rather than focusing on finding the right person to love. We can focus on building ourselves into becoming the right person. What if we could be the right person and waited little longer than usual for someone for us to enter our life's. It would be better than having to love anyone at random. We can build a better version of ourselves and help others into becoming the better version themselves.

We don't always have to love others to get loved in return. We can always love ourselves better than anyone can. Because we are the only once who knows our past, mistakes, thoughts, feeling, a lot more. It could be difficult somethings explaining it to others but we don't have to find words to express it ourselves.

"The love we need is already within us, we just need to look for it"

Two Phases of a Personal Life

Two phases of a person's life is being an infant and being an adult. Its basically two stages of life. In your life infant stage is when you are born and how you're being taken care of and specifics of being in a house and you being taken care of. The other phase of life is adulthood. This basically covers thing and aspects related to how you are living and going through life as an adult.

So beginning with you being born. You get to have the best time of your life I feel like when you're a kid. I feel like or anybody might agree that being a kid is really fun. You being bought up as a kid has a big impact on how you are as an adult. Being a kid, you get a lot of Care from your parents and they basically treasure you when you are a kid kids are very sensitive and they need a lot of care being taken, especially infants. Infants have a very sensitive skin and also sensitive immune system. When you grow. A bit older, you find new friends and go out to play certain sports and I feel like that's is when you actually pick a hobby or something you are interested in.

Not saying the second phase of life, that is adulthood is bad. But when yours an infant you just get to eat and sleep all day and you being a kid, you can go out and play all day and not really life care about anything, responsibility code of family life.

But once you are an adult your ego boosts and you have the responsibility of making your family or society proud and praise your societal responsibility and societal backlash is very real once you are adult. Being an adult, you think too much about what others think of you and how you should act or be with them. This causes a lot of fear which leads to depression and anxiety and any other mental diagnosis. Mental health is not something everybody talles about as an adult, but having to deal with the societal responsibilities and the harsh reality makes everybody as an adult feel small. As much as there is the backlash, you Can turn things around and take your own decisions and not care about people leaving our ego aside and taking decisions. Would lead lo a healthier and happier life in future.

In conclusion, it doesn't matter if you're an adult or an infant until and unless you have to worry about anything you'll be held back in life. I feel like everything in this world is god's creation and he are just were to fulfill some karma or destiny that was meant for us. Leading life with good intention and good qualities will always lead to good results. Having good results or bad result shouldn't matter in life. Going through life without having to put anyone down just for yourself to feel better is something not nice. So just live a life and about overthink.

The Way You Lead

There happens to be a time,
When live to accept
Lie to Satisfy, wait to realize,
Desire to feel those mistakes and
afraid to own them

For all one must know ,
it is always better to escape
Because in the shades of Memories
We fade.

Emotions

In this generation most of us always end up running from something (Relationship, friends, family, fights, answers, responsibility). We deny that we all have something inside us which we have tried to hide at least once in our lifetime. They can be named as “Emotions”. As a child we used to hide certain emotions which used to make us feel stronger and good. In our childhood, we knew very less about how the world works in the reality. By the age 14 – 18 or maybe more, we would have realized what emotions are and what they define. Emotions has no definition or any explanation, they are things we feel inside us. They have both positive and negative emotions we can feel.

We feel sad when something doesn't go as we imagined it would go or we would feel hurt when our close once would do things which disturbed us and we would feel happy, joyful when we get Surprises and gifts. Emotions are with us always from the birth till the death. Then why do we sometimes feel we should stop feeling them forever or we beg God to do something so that we never feel any emotions ever. Which technically would be a smart wish to ask because emotions are the only things that creates difference from nonliving things and living things. We feel scared when we fall but a table or a brick is never scared about it breaking because they do not feel any emotions such as happiness or pain.

A question we all have once in our life time “what if I don't feel any emotions?”. “How would it feel”. The answer to this question is clear. That if we have no emotions we would feel like a nonliving thing. We will be not afraid to do things which we used to be scared to do or even if we fall, we would get up without feeling pain[Emotion]. Many people can agree that we will be stronger than another people and will have an advantage to become successful. Being emotionless feels like having the same face every day from waking up from the bed to going back to bed. Being in the constant cycle of doing things without any feelings. Waking up, eating, working, sleeping, etc. In the positive side of not feeling anything you grow cold towards other people and don't really care about them. I am not trying to say you will be selfish or anything related to that. Without Emotions we wont care abt others neither care ourself.

In this generation, I can say that a lot of people feel they are not hear, seen or valued. Due to these reasons most of the people tend to off or less their emotions. This would help them reduce the hard feeling inside them. People think that resetting their emotions or showing that they don't feel anything. But the truth is they burry their emotions inside themselves because they think it is easier than explaining it to other people, it may be family friend's partners or anyone. It is difficult for them to open up about their emotions to others. They estimate that expressing their Emotions may lead others to feel that they are weak or helpless. This is due to the past scenarios which happened to them. They refuse to trust people to understand them because they were brought up in the way that, they should be strong, they shouldn't feel depressed or would have a lot of restrictions. Sometimes this builds up inside them for days, weeks, months or years. This would lead to sudden leashing all their Emotions at one time. Resulting in sudden anger sadness or emptiness.

I conclude by saying that experiencing this might be heart breaking or even worst. But someone we cannot control what's going on around us. We just have to accept that somethings are not meant for us even if we want that thing the most in our life. I too have encountered such incidents within myself.

Poem

Love is such a small word
A four letter word,
Which can mean a lot to someone.

This thing called love,
Can be so cold
It can be magical,
It can be beautiful,
It can be miserable,
This thing called love,

Love can be the best thing to ever happen
Love can be the worst thing to ever happen
It can bring you up,
It can tear you down,
Love can make you wish, that you'd never have
experienced it.

Love has its highs and lows.
Love can feel like a blessing
Love can feel like a curse
This thing called love.

If I'd ever given a chance to be
Loved for just a day,
Or to be never loved at all,
I would choose to be loved,
For to have never have experienced love
It is the greatest loss in life.

This thing called love,
Can be so cold
It can be magical,
It can be beautiful,
It can be miserable,
This thing called love,
Love it can hurt you,
Love it can heal you,
Love can make you feel like you can fly,
Love can tie you down.

Love is a fickle thing.
It solely depends on trust
This thing called love,

A four-letter word,
Which is a double-edged sword,
Can be so cold
It can be miserable,
It can be beautiful,
This thing called love,

पाठशाला और घर के प्रति विद्यार्थी की जिम्मेदारियाँ

विद्यार्थी जीवन स्वर्णिम जीवन के साथ-साथ जीवन का आधारशिला भी है। विद्यार्थी जीवन से ही अच्छा नागरिक बनने की नींव डालने की समस्या आज हमारे सामने खड़ी है। इसके प्रति सभी अपने अपने ढंग से सुलझाने का प्रयत्न भी कर रहे हैं। समाज में प्रथम और प्रमुख इकाई घर है। कर्तव्य करने का आरंभ घर से ही शुरू होता है। माता-पिता की जिम्मेदारी बच्चों के प्रति और बच्चों की जिम्मेदारी माता-पिता के प्रति, पति का पत्नी के प्रति, पत्नी का प्रति के प्रति, भाई का बहन के प्रति, बहन का भाई के प्रति, बाद में घर के बाहर कदम रखेंगे तो अडोस-पडोस के प्रति और समाज के प्रति अनेक जिम्मेदारियाँ होती हैं। घर से

सुसंस्कार प्राप्त कर जब छात्र पाठशाला में कदम रखता है तब पाठशाला का वातावरण भी उसे मार्गदर्शक का काम करना पड़ता है। पाठशाला में छात्र का चरित्र का निर्माण करने का ज्ञान के साथ-साथ जीवन में एक जिम्मेदार नागरिक बनने की शिक्षा भी मिलनी चाहिए।

आज की युवा पीढ़ी अनुशासन्हीन होती जा रही है। बड़ों का आदर-सम्मान नहीं करती, अपनी मनेमानी करती है। जीवन के प्रति निराशा और हताशा दिखाती है। उनके अंदर एक प्रकार का तनाव, अकेलापन, कमजोरी और हीनता की भावना घर कर रही हैं। इसलिए पहले हमें घर के प्रति उनकी क्या-क्या जिम्मेदारियाँ, उसके बारे में विसृत रूप से समझाने का काम करना है। घर या परिवार छात्र या व्यक्ति के लिए नींव है। वही से उसकी जिंदगी शुरू होती है। अतः बड़ों के प्रति सम्मान रखना, उनके कामों में भागीदार बनकर मदद करना, अनुशासन का पालन करना, समय का सदुपयोग करना, अपने से छोटे बच्चों के प्रति प्यार और आत्मीय भाव रखना आदि प्रमुख जिम्मेदारियाँ होती हैं। हर एक बच्चे का अपने माता-पिता के प्रति यह पवित्र कर्तव्य बनता है कि वह सदैव उनका सम्मान करें। पूरी लगन और परिश्रम से अध्ययन कर अच्छे अंक प्राप्त कर अच्छा चरित्र धारण कर, उज्ज्वल भविष्य का निर्माण स्वयं करें। पाठशाला में गुरु के प्रति आदर भाव रखकर उनका सुमार्गदर्शन में अपने भविष्य की महानता के शिखर की ओर जाने में सक्षम बनें। पढ़ाई साथ-साथ विद्यालय को श्रेष्ठ बनाने में यथा संभव योगदान करना चाहिए। विद्यालय को साफ रखने में मदद करें और अन्यो को भी स्वच्छता बनाए रखने हेतु प्रेरित करें। इन कार्यों के साथ-साथ विद्यालय की गरिमा को बढ़ाने की ओर कार्यरत होना चाहिए। विद्यालय में कक्षा हो या कैटीन हो वहाँ की संपत्ति की सुरक्षा भी उनकी जिम्मेदारी है। पाठशाला के आंदर हो या बाहर कुसंगति से दूर रहना चाहिए। समाजघातुक कामों में कभी भी भाग नहीं लेना चाहिए। समय मिलने पर वह ज्ञान का प्रकाश लोगों तक पहुँचाने का यथा संभव प्रयत्न करना चाहिए। अपने राष्ट्रीय ध्वज, राष्ट्रीय गीत और संविधान का सम्मान करना चाहिए। सदा राष्ट्रविरोधी तत्वों से सचेत रहे और किसी भी प्रकार से राष्ट्र की संपत्ति को क्षति न पहुँचाएँ।

बच्चे या छात्र गीली मिट्टी के समान होते हैं। जैसा चाहो वैसा उन्हें रूप दे सकते हैं। अब जिम्मेदारी है कि हम अपने संस्कारों की स्याही से उस पर सगुण अंकित करना चाहिए। बाल्यावस्था में जो प्रवृत्ति पड़ जाती है वही जीवन भर उसका साथ नहीं छोड़ती। अतः आज के छात्र अपनी जिम्मेदारियों समझकर राष्ट्र की प्रगति में अपने आप को समर्पित करें।

पशु प्रेम (प्यारे पालतू जानवरों से जुड़ाव: एक अनोखा रिश्ता)

पशु प्रेम एक ऐसा भाव है जो मनुष्यों और जानवरों के बीच के एक विशेष बंधन को दर्शाता है। यह प्यार, दया, करुणा और सम्मान की भावनाओं से भरा होता है। पशु प्रेमी जानवरों को अपने परिवार के सदस्यों की तरह मानते हैं और उनकी देखभाल और सुरक्षा करते हैं।

पशु प्रेम के कई फायदे हैं। यह मनुष्यों को तनाव कम करने, अकेलेपन को दूर करने और खुशी बढ़ाने में मदद कर सकता है। पशु प्रेम बच्चों में जिम्मेदारी और सहानुभूति की भावना विकसित करने में भी मदद कर सकता है। पशु प्रेम हमारी संस्कृति का एक अंग है। भारत में हमेशा से ही जानवरों को सम्मान दिया गया है और उनकी पूजा भी की जाती है। हमारे पौराणिक कथाओं में भी कई ऐसे उदाहरण हैं जहां देवताओं और देवियों को जानवरों के रूप में दर्शाया गया है। आजकल, पशु प्रेम और जानवरों के अधिकारों के बारे में जागरूकता बढ़ रही है। लोग अधिक से अधिक पशुओं को गोद ले रहे हैं और उनके लिए काम कर रहे हैं। कई पशु आश्रय और संगठन हैं जो जानवरों को बचाने और उनकी देखभाल करने के लिए काम कर रहे हैं। जानवर के साथ हमारा रिश्ता एक विशेष और अद्वितीय बंधन है। वे हमें बिना शर्त प्यार और स्वीकृति देते हैं, जो हमारे मानसिक और शारीरिक स्वास्थ्य के लिए बेहद फायदेमंद होता है। जानवर हमें अकेलेपन से बाहर निकालते हैं और हमारे जीवन में एक उद्देश्य की भावना पैदा करते हैं। वे हमें जिम्मेदारी सिखाते हैं और हमारे बच्चों को करुणा और सहानुभूति का पाठ पढ़ाते हैं। पालतू जानवरों के साथ खेलना और उनकी देखभाल करना हमें खुशहाल और तनावमुक्त रखता है। पालतू जानवरों के साथ हमारा रिश्ता न केवल हमारे लिए फायदेमंद है, बल्कि उनके लिए भी बेहद खास है। उन्हें हमारा प्यार, देखभाल और ध्यान मिलता है, जो उन्हें खुश और स्वस्थ रखता है। हम उनके लिए एक परिवार होते हैं, और वे हमारे लिए एक अनमोल धरोहर हैं। एक कुत्ता अपने मालिक से इतना प्यार करता है कि वह उसके बिना कहीं नहीं जा सकता। एक बिल्ली अपने बच्चे की रक्षा के लिए किसी भी हद तक जा सकती है। एक हाथी अपने झुंड के सदस्यों के लिए अपनी जान दे सकता है। एक डॉल्फिन अपने घायल साथी की मदद करने के लिए अपने रास्ते से हट सकती है। ये सभी उदाहरण दिखाते हैं कि जानवर भी इंसानों की तरह ही प्यार, दया और करुणा की भावना रखते हैं।

हमें इन भावनाओं का सम्मान करना चाहिए और जानवरों के साथ दया और सम्मान के साथ व्यवहार करना चाहिए। जानवर हमारे जीवन में एक महत्वपूर्ण भूे हमें प्यार, साथ और खुशी देते हैं। हमें उनकी देखभाल और सम्मान के साथ व्यवहार करना चाहिए।

जिंदगी !!!

जंग नहीं, जिंदगी है ये
 जीतना नहीं, जीना सीखो,
 हर पल नये हैं इसके रंग,
 इसमें डालना सीखो,
 कहते हैं मानव जीवन सबसे श्रेष्ठ
 तो मानव जीवन को सींचके देखो,
 हर कोई परेशान यहाँ,
 उलझी है सभी की डोरी यहाँ,
 परेशानीयो में जरा मुस्कराके देखो,
 जिंदगी को जरा जी के देखो,
 क्योंकि जंग नहीं, जिंदगी है ये,
 इसे जीना सीखो!!

हिन्दी भाषा

हिन्दी मात्र भाषा नहीं संवेदनाओं का उद्गार है
 जीने के बदलते ढंगों में भावनाओं का विस्तार है
 निहित शब्द शब्द हर अक्षर

वात्सल्य है प्यार है
 विधिवत यदि कोई बोले तो
 कृतज्ञता आभार है
 पीढ़ी दर पीढ़ी आवंटित
 मूल्यों का उपहार है
 एक भाव शैली अनेक
 शब्दों का भण्डार है
 गद्य पद्य हो लेखन भाषण
 शब्दावली अपार है
 बोल चाल कोई भाषा हो
 हिंदी ही आधार है
 और यदि कोई अच्छी बोले
 लगता मंगलाचार है ।

Relevance of Arthashastra in 21st Century

There is possibly a misconception in the Western World that Ancient India was ignorant of aspects such as Strategy, Statecraft or Administration and other allied aspects even though the Indian Epics spoke of vast kingdoms and of major battles that were fought. However, the discovery of Arthashastra in the early part of the Twentieth Century changed all that. The Arthashastra was observed to be a compilation of guidelines on governing a vast empire covering aspects of internal administration, military strategy, diplomacy and economics. It also advised the ruler to promote the welfare of his people as they were the source of strength of a Nation. Use of diplomacy and political guile was propagated in preference to outright war. Rulers were also advised to calculate long-term and short-term gains before launching a war. It also talked of how every resource or element of national power should be utilised by a ruler. With most modern nations looking at issues through a similar prism, it would be evident that the Arthashastra is relevant even in the 21st Century.

Kautilya, also known as Chanakya or Vishnugupta, states right at the beginning that Arthashastra is a compendium of similar treatises written by earlier teachers. Dr. R.P. Kangle in his study, “The Kautilya Arthashastra”, has made very pertinent observations on the relevance of Kautilya in the modern era and states, “We still have the same distrust of one nation by another, the same pursuit of its own interest by every nation tempered only by the considerations of expediency, the same effort to secure alliances with same disregard of them in self-interest”. He goes on to say that it is difficult to see how rivalry and the struggle for supremacy between nations can be avoided or how the teachings of Arthashastra based on these basic facts can ever become superfluous, until some sort of one world government or an effective supranational authority is established.

Kautilya had a clear grasp of the distinction between means and end, even though he had conceived it more than 2,000 years ago. It is a concept that many strategic thinkers of today have not fully appreciated. Kautilya also spoke of intrigue, secret missions and covert operations and diplomatic offensives as instruments of state policy. All these ideas are still relevant and practiced to this day. The prohibitive expenses of war were well appreciated by him and therefore, he advocated that victory can best be achieved without bloodshed. Kautilya also spoke of utilisation of all elements of state power to achieve favourable outcomes.

Arthashastra is indeed a timeless compilation on complexities of governance and international affairs, and as relevant today as at the time of its compilation. In case of modern India, some of its policies such as non-alignment and no first use nuclear policy have shades of wisdom as advocated by Kautilya. Thus, even though written more than two millennia ago, Arthashastra would remain a referral guide in statecraft even in the 21st Century or in the foreseeable future. At the same time, it needs no reiteration that the basic principles as enunciated should be tempered to incorporate modifications to meet the needs of technology and contemporary international relations. Shiva Shankar Menon, our former National Security Advisor, during a seminar by IDSA in 2013, had succinctly summed up the relevance of Arthashastra by stating, “the concepts and ways of thinking that the Arthashastra reveals is useful, because in many ways, the world which we face today is similar to that in which Kautilya operated when he built the Mauryan Empire to greatness.”
